

INDEX FOR VOLUME 36

ARTICLES

- Bechtel, Gordon G. A covariance analysis of multiple paired comparisons. 35-55;
A dual scaling analysis for paired comparisons. 135-154.
- Bechtel, Gordon G. (with L. R. Tucker and W-C. Chang). A scalar product model for the multidimensional scaling of choice. 369-388.
- Chang, Wei-Ching. (with G. G. Bechtel and L. R. Tucker). A scalar product model for the multidimensional scaling of choice. 369-388.
- Corballis, M. C. Comparison of ranks of cross-product and covariance solutions in component analysis. 243-249.
- D'Agostino, Ralph B. (with B. Rosman). A normal approximation for testing the equality of two independent chi-square variables. 251-252.
- Ebert, Ronald J. Sequential decision making: An aggregate scheduling methodology. 303-316.
- Fienberg, Stephen E. (with F. K. Larntz, Jr.). Some models for individual-group comparisons and group behavior. 349-367.
- Froemel, Ernest C. A comparison of computer routines for the calculation of the tetrachoric correlation coefficient. 165-174.
- Gebhardt, Friedrich. Maximum likelihood solution to factor analysis when some factors are completely specified. 155-163.
- Geisser, Seymour (with R. F. Kappenman). A posterior region for parallel profile differentials. 71-78.
- Gilbert, John P. (with C. Youtz, G. R. Iversen, W. H. Longcor, and F. Mosteller). Bias runs in dice throwing and recording: A few million throws. 1-19.
- Goldberger, Arthur S. Econometrics and psychometrics: A survey of communalities. 83-107.
- Greeno, James G. (with R. B. Millward and C. T. Merryman). Matrix analysis of identifiability of some finite Markov models. 389-408.
- Groen, Guy J. Stochastic processes and the Guttman simplex. 289-302.
- Guttman, Louis. Measurement as structural theory. 329-347.
- Hakstian, A. Ralph. A comparative evaluation of several prominent methods of oblique factor transformation. 175-193.
- Hamdan, M.A. On the polychoric series method for estimation of rho in contingency tables. 253-259.
- Iversen, Gudmund R. (with W. H. Longcor, F. Mosteller, J. P. Gilbert, and C. Youtz). Bias and runs in dice throwing and recoding: A few million throws. 1-19.
- Jackson, Paul H. (with M. R. Novick and D. T. Thayer). Bayesian inference and the classical test theory model: Reliability and true scores. 261-288.
- Jöreskog, Karl G. Statistical analysis of sets of congeneric tests. 109-133;
Simultaneous factor analysis in several populations. 409-426.
- Kappenman, Russell F. (with S. Geisser). A posterior region for parallel profile differentials. 71-78.
- Kristof, Walter. On the theory of a set of tests which differ only in length. 207-225.
- Kruskal, Joseph B. Monotone regression: Continuity and differentiability properties. 57-62.

- Larntz, F. Kinley Jr. (with S. E. Fienberg). Some models for individual-group comparisons and group behavior. 349-367.
- Lingoes, James C. Some boundary conditions for a monotone analysis of symmetric matrices. 195-203.
- Longcor, Willard H. (with F. Mosteller, J. P. Gilbert, C. Youtz, and G. R. Iversen). Bias and runs in dice throwing and recording: A few million throws. 1-19.
- Lord, Frederic M. A theoretical study of two-stage testing. 227-242.
- Merryman, Coleman T. (with J. G. Greeno and R. B. Millward). Matrix analysis of identifiability of some finite Markov models. 389-408.
- Millward, Richard B. (with J. G. Greeno and C. T. Merryman). Matrix analysis of identifiability of some finite Markov models. 389-408.
- Mosteller, Frederick (with J. P. Gilbert, C. Youtz, G. R. Iversen and W. H. Longcor). Bias and runs in dice throwing and recording: A few million throws. 1-19.
- Mulaik, Stanley A. A note on some equations of confirmatory factor analysis. 63-70.
- Novick, Melvin R. (with P. H. Jackson and D. T. Thayer). Bayesian inference and the classical test theory model: Reliability and true scores. 261-288.
- Rosman, Bernard. (with R. B. D'Agostino). A normal approximation for testing the equality of two independent chi-square variables. 251-252.
- Schönemann, Peter H. The minimum average correlation between equivalent sets of uncorrelated factors. 21-30.
- Smith, Robert A. The effect of unequal group size on Tukey's HSD procedure. 31-34.
- Thayer, Dorothy T. (with M. R. Novick and P. H. Jackson). Bayesian inference and the classical test theory model: Reliability and true scores. 261-288.
- Tucker, Ledyard R. Relations of factor score estimates to their use. 427-436.
- Tucker, Ledyard R. (with W-C. Chang and G. G. Bechtel). A scalar product model for the multidimensional scaling of choice. 369-388.
- Youtz, Cleo (with G. R. Iversen, W. H. Longcor, F. Mosteller, and J. P. Gilbert.) Bias and runs in dice throwing and recording: A few million throws. 1-19.

REVIEWS

- Boulger, John R. Review of *Essentials of Psychological Testing*, by Lee J. Cronbach. 319-322.
- Cramer, Elliot M. Review of *Multivariate Model Building: The Validation of a Search Strategy*, by John A. Sonquist. 440-442.
- Freedle, Roy. Reviews of: *Mathematical Psychology: An Elementary Introduction*, by C. H. Coombs, R. M. Dawes, and A. Tversky; and *Introduction to Mathematical Psychology*, by F. Restle and J. G. Greeno. 322-328.
- Mayo, Samuel T. Review of *An Author and Permuted Title Index to Selected Statistical Journals*, by Brian L. Joiner et al. 439-440.
- Mehrens, William A. Review of *Essentials of Psychological Testing*, by Lee J. Cronbach. 317-319.
- Menzel, E. W. (with A. J. Riopelle). Review of *Direct Observation and Measurement of Behavior*, by S. J. Hutt and Corinne Hutt. 79-81.
- Noty, Charles. Review of *The Measurement of Satisfaction in Work and Retirement*, by Patricia C. Smith et al. 437-439.
- Riopelle, A. J. (with E. W. Menzel). Review of *Direct Observation and Measurement of Behavior*, by S. J. Hutt and Corinne Hutt. 79-81.
- Wiggins, Nancy. Review of *Toward Quantification of Meaning: An Evaluation of the Semantic Differential Technique*, by Kaarle Nordenstreng. 205.
